Hey Jim,

You must have brought the cool weather in, it's been incredibly hot until today. Thanks for the invite to meet. I am available at 2:00, where should I come?

Look forward to meeting in person,
Tricia

=====

Tricia:

I am in Denver and will be meeting with Cindy Beeler and Alex North Wednesday at 2.00. They will be coming to ND in July for oil field inspections.

Question: Would you like to sit down with us for a few minutes?
?

If the above doesn't work, Would you be available to meet with me (only) at some other time?? I am available Wednesday at 1.00 and could possibly break away Thursday morning or afternoon to meet.

Jim

Jim and John,

Please see Jacki's email below. I have forwarded the email to our air folks also.

Thanks,
Tricia

Subject: air problems

This is what we have been breathing this week-and also the gas coming off the Ellis-Somerset well. This site has been bellowing black smoke over a week-very strong smell of burning tires 24/7. Also the pipeline was down several days last week, all the flares on the wells around us were burning but not the Ellis-Somerset site. The line going to the flare on this site-the valve is closed, so there is no chance that the gas can even be burned off. These people are intentionally trying to kill us it seems. Steve, myself and the animals have been sick all week. I have found 2 dead kittens in the yard again this week. I ordered a canister and took an air sample over the weekend, should have

results by the end of the week.
